▶ CABIN IN THE WOODS ESCAPE ROOM LUNCH

Mankind has known for centuries that among the trees there is both beauty and danger. Usually, folks keep to the roads, but some choose to brave the wilds, and if they return, they bring stories about strange and mysterious creatures...the things that go bump in the night. You've been training to become a hunter, to be able to survive against anything that might come after you, and you've come here for your final test. This cabin has been a crossroads for many hunters passing through the woods at night, and each one has left something behind. Your task is to explore the histories and mysteries within, learn from your predecessors, and find the code that will give you the green light to leave your cabin in the woods as a fully-fledged monster hunter. Minimum age for drivers is 18; minimum age for passengers is 12. Max is 12 for this adventure.
